

Reactive Rover: Foundations Group Class!

This program is for dogs who exhibit reactivity towards dogs only, and without other behavioral concerns. Pets with additional behavioral problems should be referred for a comprehensive Behavior Health Assessment.

Why choose Reactive Rover with Synergy?

Does the thought of taking your dog for a walk stress you out? Does your dog's barking and lunging at other dogs cause embarrassment? Are you ready to take quiet walks with your best friend? Have no fear, help is here!

Our Reactive Rover: Foundations class takes place in the climate controlled comfort of our behavior center's training space. This class is all on-leash, and focuses on building calm behaviors with dogs at a distance. All of our classes are kept supportive and safe for our doggy students and their humans. We will help you learn skills and strategies to make walks more peaceful.

Registration Includes:

- One 2-hour Handler Workshop (Required)
- 6 weekly classes with your dog
